

Ann Thelander (Physiotherapist) and **Roberta Chow**
(Medical Practitioner) present a seminar on the
management of **Lymphoedema and Pain Management**
using **low-level laser therapy**.

The Australian Medical Laser Association (AMLA) is a multidisciplinary organisation formed in 2005 to promote the development of evidence-based practice of low-level laser therapy.
(See our website for details – www.AMLA.org.au)

Ann Thelander, a physiotherapist from SA, is an authority on the management of lymphoedema using low power lasers. She lectures internationally and has co-authored several peer-reviewed papers on this topic.

Roberta Chow is a general practitioner from Sydney who uses laser therapy in pain management. She has recently completed her PhD on laser therapy in neck pain and has several published papers in peer-reviewed journals.

Date: Sunday September 17, 2006

Time: 9am – 4pm

Venue: Wallace Freeborn Lecture Theatre, Royal North Shore Hospital, St Leonards (in the Northern Clinical School)

Cost: \$95 (includes morning and afternoon teas and lunch)

Lectures will cover basics laser physics, mechanisms of action in lymphoedema and pain management. Workshop format in the afternoon will focus on clinical application and laser demonstration.

For registration please contact Dr Roberta Chow via email at rtchow@bigpond.net.au or 02 9634 5000

Applications for CME points have been made but are not guaranteed.
